// PROFESSIONAL SUMMARY

I ship real products — and I ship the tools agents use to help me ship them.

// EXPERIENCE HIGHLIGHTS

BOOZ ALLEN HAMILTON · DEVELOPER PORTAL

2024 — 2026

/te-skin — a design system as an agent-consumable skill

Packaged a 17-component design system as a slash-command skill (/te-skin) that AI agents invoke to return ready-to-use components — HTML + CSS + W3C-token JSON each — from a machine-readable index. Proof that 'Agentic Designer' is not a role I claim, but one I ship.

– 17 components, versioned 2.0.0, HTML+CSS+JSON metadata per component

– Design DNA codified: hard constraints, soft guidelines, named anti-patterns, testing checklist

– W3C-format tokens + CSS custom properties side by side — one source, many consumers

2026

EnRegla — compliance SaaS, 0 → 1.0-MVP in 40 days

SaaS de compliance multi-sede for LATAM SMBs. 0 → 1.0-MVP in production in 40 days, co-built with Claude Code using MCP servers and parallel subagents.

– 346 commits · 21 SQL migrations · 31 UI components · 1 edge function with cron

– Supabase MCP server wired into Claude Code for direct SQL + migrations

– Recursive DS migration (17 parts × 5 rounds) scored 78.4 → 95.6
