

I design software for **complex, regulated environments** — federal, financial, and compliance systems. I pair deep UX judgment and research with production-grade design-engineering, turning dense data and compliance models into interfaces people trust.

15+ yrs design Booz Allen Hamilton • DoD • VA • FAA • Merck • Mondelēz • Pichincha • Juan Valdez

EXPERIENCE

2022–NOW

BOOZ ALLEN HAMILTON ARMY • DOD • VA • FAA

Senior Product Designer (Design-Engineering)

- Lead UX/UI for the federal Trusted Environments platform and Developer Portal; architected two parallel design systems (/te-skin, agent-consumable, and TE Black) with WCAG 2.1 AA audited into the tokens.
- Built LLM-based persona emulators to pressure-test flows before development — design research at agent speed — and consult Army/DoD teams on secure UI pipelines.

2026–NOW

COMPLIANCE SAAS • LATAM PAYING PILOTS

Founder • Lead Product Designer

- Founded a multi-site compliance SaaS for LATAM SMBs; owned product design end-to-end and shipped a validated 1.0 MVP to production in 40 days (346 commits, 21 SQL migrations).
- Designed a 31-component UI system in Figma and shipped it in React 19 / TypeScript at 100% fidelity, hardened through a 17-part design-system migration (78.4 → 95.6).

2016–2022

XENTINELS DESIGNOPS

Design Systems Lead • Product Manager

- Built and led a DesignOps practice inside Central Design, scaling a distributed-yet-centralized, multi-theme design system and token library for enterprise clients (Merck, Mondelēz, Banco Pichincha, Quifatex, Azzorti).
- Ran the qualitative research program (interviews, usability testing, card sorting) and owned the design-to-engineering handoff — a single source of UI truth across teams.

CAPABILITIES

PRODUCT & UX

Research • Interaction • Cognitive ergonomics • Usability testing

DESIGN SYSTEMS

Tokens • Figma libraries • Component architecture

DESIGN ENGINEERING

TypeScript • React 19 • Next.js • Prototyping

AGENTIC UX / AI

Usability testing • Persona emulation • LLM-driven UI

EDUCATION

B.Sc. Computer Systems Eng. EPN • 2015

Google UX Design Coursera • 2021

Design Thinking IBM • 2020
