## SUMMARY

I design software products for complex, regulated environments. Senior UX judgment and user psychology that drives the metrics — system design to align complex architectures into frictionless experiences, with AI-augmented research as leverage.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2022–NOW  | <div><b>Booz Allen Hamilton</b></div> <div>ARMY · DOD · VA · FAA</div> <div>Senior Product Designer (Design-Engineering)</div> <div>Led end-to-end product design for the federal Trusted Environments platform and Developer Portal — cutting design-to-dev cycle from ~6 weeks to under 1 week. Architected two design systems (Shadcn, Radix, BAH Brand Book) compliant with WCAG 2.2 and Section 508, passing 95%+ of automated accessibility checks; scaled from 0 to 26 internal teams at Booz Allen Hamilton, including the Vellox Reverser cybersecurity product. Pioneered agentic UX research: built LLM-based persona emulators running moderated usability tests (5 users per feature); 92% rated the improvements better. Designed a custom MCP for developers.</div> |
| 2026–NOW  | <div><b>Compliance SaaS · LATAM</b></div> <div>280+ PAYING USERS</div> <div>Lead Product Designer</div> <div>Owned discovery-to-launch design for a compliance SaaS for LATAM SMBs, shipping a validated MVP in 40 days. Instrumented end-to-end analytics in Mixpanel; rebuilt onboarding funnel — lifting new-user activation from 2.6% to 9.4% in under 3 weeks. A/B tested onboarding sign-up (email vs. Google sign-in); Google won, improving completion by 74%. Designed a 31-component Figma design system implemented in React/TypeScript; validated via AI-persona loops, growing to ~280 paying customers.</div>                                                                                                                                                        |
| 2016–2022 | <div><b>Xentinel's DesignOps</b></div> <div>Design Director / Product Manager</div> <div>Directed the DesignOps unit, scaling distributed, multi-theme design systems (Ant Design, Material UI, IBM Carbon, and a custom Shadcn-based system for Banco Pichincha) across Fortune 500 clients (Merck, Mondelēz, Banco Pichincha). Led qualitative research (100+ interviews, usability testing, card sorting) to define enterprise interaction patterns, and mentored ~12 junior/mid designers. Streamlined design-to-engineering handoff, cutting time-to-market 35%.</div>                                                                                                                                                                                                        |
