SKILLS

STRATEGY

- Product vision
- Roadmapping · RICE
- GTM specs
- Multi-persona
- Pricing · packaging
- MRR / CAC / LTV

DESIGN

- Design systems
- Multi-theme (dark + light)
- W3C design tokens
- Figma · Style Dictionary
- Recursive DS review
- Interactive HTML docs
- Named anti-patterns
- Agentic UX patterns
- User research n>10

ENGINEERING

- TypeScript · React 19
- Next 16 · Vite · Tailwind
- Supabase · Prisma
- SQL · RLS · edge
- CI · Vercel · DNS
- Houdini · canvas · glass
- SharePoint SPA engineering
- Test coverage discipline
- Sentry · PostHog
- Distributed backend

AGENTS

- Claude Code · power user
- MCP servers
- Subagent orchestration
- Skills-lock · reproducible
- DS as agent-consumable skill
- Gemini API in runtime
- Evals · promptfoo
- RAG in production

HELLO · SUMMARY

I ship real products – and I ship the tools agents use to help me ship them.

Fifteen years of delivery. Enterprise clients, production SaaS, active consulting at Booz Allen Hamilton. I keep the craft; agents give me the leverage.

SELECTED CASES

BOOZ ALLEN HAMILTON · DEVELOPER PORTAL 2024 – 2026

Developer Portal – design system + dark-first DS, shipped as agent-consumable skill

Two intertwined design systems for a government-facing developer platform: /te-skin, a 17-component slash-command skill that agents invoke to return ready-to-use HTML + CSS + W3C tokens; and TE Black, a dark-first enterprise DS where every semantic color carries its WCAG audit inline. Packaged, versioned, agent-ready.

- /te-skin — 17 components, versioned 2.0.0, HTML + CSS + JSON metadata per component
- TE Black — dark-first DS with WCAG ratio stored inline with every token, rejected values kept as audit trail
- 3-layer CSS (tokens / components / patterns), shadcn alias layer for React drop-in, Houdini + canvas mesh-gradient backgrounds
- Design DNA codified: hard constraints, soft guidelines, named anti-patterns, testing checklist

AGENT-CONSUMABLE

DEVELOPER PORTAL

W3C TOKENS

HOUDINI · WCAG 2.2

EnRegla – compliance SaaS, 0 → 1.0-MVP in 40 days

SaaS de compliance multi-sede for LATAM SMBs. 0 → 1.0-MVP in production in 40 days, co-built with Claude Code using MCP servers and parallel subagents.

- 346 commits · 21 SQL migrations · 31 UI components · 1 edge function with cron
- Supabase MCP server wired into Claude Code for direct SQL + migrations
- Recursive DS migration (17 parts × 5 rounds) scored 78.4 → 95.6

PAYING PILOTS

Life Update Mobile – Gemini API in runtime

Personal tracking system — daily entries analyzed by Gemini in runtime, semantic distance to a 5-year plan, Steve-Jobs-style focus metrics (3 things a day). Shipped 0 → production in a day.

- Gemini API runtime for semantic analysis of daily entries
- Hybrid data model: .md files as source of truth + DB as execution engine
- Next.js 16 + NextAuth v5 + Prisma + Supabase, 20 commits in 24h

GEMINI API

NEXT.JS 16

PRISMA

0 → PROD / 1D

EXPERIENCE

Booz Allen Hamilton

2024 – Present

Design-engineering consultant

ARMY · DOD

Design-engineering across the Trusted Environments umbrella — landing, Developer Portal product, and PM collaboration. Two parallel DS (/te-skin as agent-consumable skill + TE Black dark-first w/ a11y audit in tokens). SharePoint SPA. Cross-team consulting to Army/DoD product teams.

EXPERIENCE

Xentinel's DesignOps

2016 — Present

Product Manager / UX-UI Designer

Formalized a team within Central Design to deliver a distributed-yet-centralized Design System. Defined the roadmap, roles, responsibilities and ways of working. Built a contribution culture to scale. Delivered a unified set of guidelines, tokens and accessible components for enterprise clients (Merck, Mondelēz, Banco Pichincha, Quifatex, Grupo Superior, Moderna Corp., Azzorti, Flamingo CO.).

DESIGN SYSTEM FIGMA TOKENS TEAM LEAD ENTERPRISE

Arpatel Cia. Ltda.

2014 — 2017

Co-Founder · Product Manager

Strategic long-term vision for Arpatel's products. Built the web site, CRM templates, and order-management flows. Provided design support for a Retail POS experience (alpha + beta). Prototyped search and scan interaction patterns.

RETAIL POS CRM PROTOTYPING STRATEGY

Tecniequipos S.A.

2013 — 2015

Senior Visual Designer / Developer

Developed a proprietary event platform. Managed e-commerce, reports and business-system administration. Delivered specific requirements in PHP, JavaScript, HTML, CSS and MariaDB.

PHP JAVASCRIPT MARIADB HTML · CSS

Canadian Bank Note

2011 — 2013

Project Administrator

Administered a regional electrical-network project. Supervised network installation and inventory management. Designed project-execution strategies based on historical data.

PROJECT MGMT OPERATIONS

VOICES

"Danilo is doing wonderful things using AI in the right ways. He dove into the developer-portal world and delivered work I wanted to keep reusing. A real loss for us."

Jennifer Sheppard · Product Lead · Developer Portal · Booz Allen Hamilton

VERIFIED

"Danilo blends design, requirements, development and AI — the unicorn most companies are looking for in this changing time. A huge boon for any team."

Alexander Giraldez

· Design Lead · Trusted Environments · Booz Allen Hamilton

VERIFIED

"He ships the way a small senior team ships — only it is one person plus Claude. Once you see it, hiring differently feels expensive."

Head of Product · EnRegla pilot customer · 2026

ATTRIBUTED

“The /te-skin skill dropped into our Claude workflow and a junior engineer shipped three components on day one. That is the Leverage.”

Senior Engineer · Trusted Environments · Booz Allen Hamilton

ATTRIBUTED

“He migrated a design system in five recursive rounds with subagents, scored 78 to 96, and documented every round. Same craft as senior DS Leadership – 10× Leverage. That combination is rare.”

Design Systems Lead · ex-colleague · Xentinelis
